

# Recycling Scavenger Hunt

Have a look at some of the packaging around your home and find out what material(s) it is made of and whether or not it can be recycled.

<p>What type of packaging is it?</p> <p><i>e.g. shower gel, drinks can or crisp packet</i></p>	<p>Which recycling symbols* are in its packaging?</p> <p><i>Draw them or take a photo</i></p>	<p>What materials is the packaging made from?</p> <p><i>These are either stated or a symbol is used</i></p>	<p>Why do you think this material(s) is used?</p> <p><i>What properties does the material have?</i></p>	<p>Can it be recycled? If so how?</p> <p><i>This is shown by the symbol</i></p>

\*Symbols and recycling information can be found via this link: <https://www.recyclenow.com/recycling-knowledge/packaging-symbols-explained>

It would be great to see how you have got on so please share a photo of your completed sheet and upload it to our Padlet page (by using the QR code or following this link: <https://padlet.com/DiscoverMaterials/acjdo0ix5hlf3bld> ) where you can see how everyone else got on.
